

## Building A Structure : Farm

Teacher Name: **J Ipson**

Group: \_\_\_\_\_

CATEGORY	4	3	2	1
Information Gathering	The group looked at several sources for information to build their farms	The group only looked at a couple sources for information to build their farms	Students only looked at one source for information, or their information gathered was incorrect.	No attempt made by group to gather information for project.
Construction -Materials	Appropriate materials were selected and creatively used to accurately create diorama.	Appropriate materials were selected and most were used accurately to create diorama.	Appropriate materials were selected but not used appropriately in diorama.	Inappropriate materials were selected and contributed to a product that is poorly done and does not accurately portray the farm.
Group Work	All members of group worked together to create the project.	All members of group contributed to the project, but work was not evenly distributed.	Some members of the group did all the work while others had no opportunity or chose not to help with project.	Only one or 2 members of the group completed entire project while others were off task
Scientific Knowledge	Explanations by all group members indicate a clear and accurate understanding of the farm type and resources available.	Explanations by all group members indicate a relatively accurate understanding of the farm type and resources available.	Explanations by most group members indicate relatively accurate understanding of farm type and resources available.	Explanations by several members of the group do not illustrate much understanding farm type and resources available.
